

Mr. Blais
Art 7
Unit 1: Linear Perspective
Lesson 6
2 Pt. 3-5 Boxes Closed

1. Draw HL, VP 1 (left side), VP 2 (right side) and 3 vertical (starter) lines: one above HL, one on HL and one below HL.

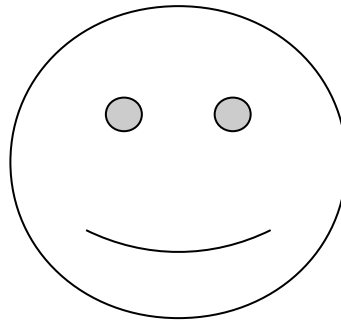

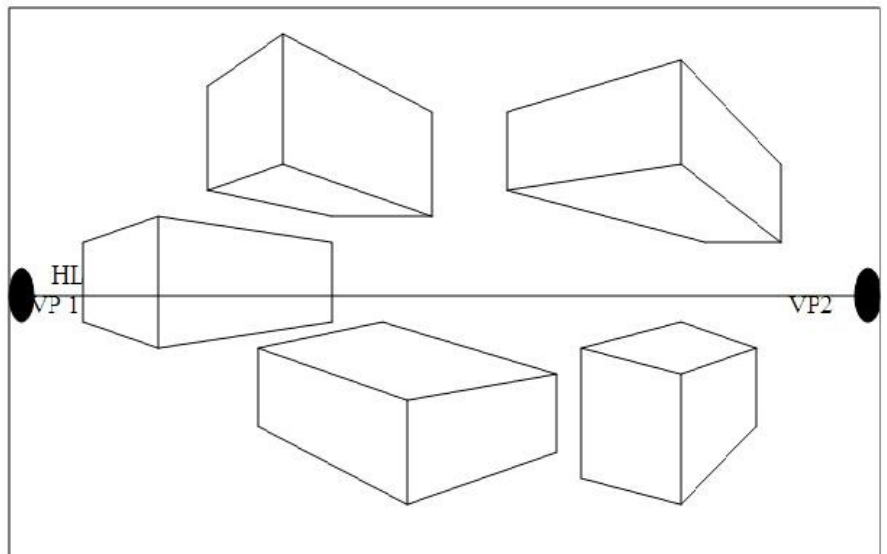

2. Line up the top and bottom of each starter line with both vanishing points (remember to stop drawing this diagonal line when you get to the mark you just made @ 3 inches, no bigger)

3. Now use the slide technique to connect the diagonals, you just drew, to each other using vertical lines

4. Lastly, to draw the top or the bottom of a box line up the top/bottom corners with the opposite vp (ie; top left corner lines up with vp 2)

You Are Finished!!!
