Draper Middle School recognizes that school supplies are costly. We have made every attempt while compiling the list above, to consolidate items, and minimize the expense to our families. Please understand that if your student runs out of consumable supplies (i.e.: paper, pencils, pens), that you may have to replenish them. Also, the special area classes listed above may not be a class that your student is taking the first semester. Please check with your student about their schedule and their needs for quarter 1. If you have any questions, please call the Guidance Office at 356-8371. Thank you for your continued support for your student!
