12:30 PM Geometry & Living Env

SS Courses Taking:

Attendance is mandatory- students may only miss three days of summer school. If you miss more than three days, you will be removed and won't earn credit for the course.

- Summer School is being hosted by Capital Region BOCES at Niskayuna High School. Schenectady and Guilderland students will also be in attendance.
- There will be a bus that picks up students at neighborhood locations to transport them to and from Niskayuna High School. Stops will be posted on the Mohonasen.org website as soon as we get them - keep checking.
- Buses will not run between the two summer school periods at 10:05. If you are only taking one class, you will need to provide transportation either to or from Niskayuna, depending on the time of your class, or you will attend a study hall for the two hours between class and transportation.
- SS schedules will be available at Niskayuna on the first day of SS, Wed, July 10 and also a few days before the 10th by request at Mohonasen HS. Please email Mr. Vacca at wvacca@mohonasen.org and he will email back your schedule. A Parent Square message will be sent out when schedules are available.
- Interim Progress Reports for the first 12 days of SS will be mailed out on July 26.

*For the **Earth Science Regents**, there is a **MANDATORY lab practical** section of the Regents exam. This will be at Niskayuna HS the week of Aug 12th. More info will be sent later in the summer to those who register for the August Earth Science Regents.*
